PROFESSIONAL SUMMARY

Business Analyst and Data Analyst with hands-on experience in process automation, data analysis, ETL pipelines, SQL reporting, ITGC audits, and project coordination. Proven track record of reducing manual effort by 40% and improving reporting turnaround by 35% through workflow automation and process optimization. Experienced in requirements gathering, stakeholder coordination, KPI reporting, and supporting cross-functional project delivery. Currently pursuing an MBA in Project Management and seeking Business Analyst, PMO, or Project Analyst roles.

Skills

- Business & Project: Requirements Gathering, Stakeholder Coordination, Change Management, Project Tracking, Workflow Automation, KPI Reporting, SDLC, Agile Concepts, PMO Support
- Analytics & Data: Python, SQL, ETL Pipelines, Data Cleaning, Data Modeling, Reporting, Dashboards
- BI & Tools: Power BI, Tableau, Excel (Advanced)
- Audit & Compliance: ITGC Testing, Control Remediation Support, Audit Reporting

EXPERIENCE

Data Analyst, <i>MM Nissim and Co LLP,</i>	<i>Aug 2024 – Present</i> <i>Noida, Uttar Pradesh</i>
• Automated TDS, GST, and audit processes using Python and ETL scripts; reduced manual work by 40%. • Designed and optimized 50+SQL queries, improving accuracy of monthly financial exception reports and reducing report turnaround time by 35%. • Enhanced Python automation scripts, cutting processing time from 10 mins to 7 mins per dataset (30%) for high volume financial data. • Conducted ITGC audits, strengthening internal controls and improving audit readiness across finance systems. • Coordinated requirements, timelines, and deliverables across audit & automation projects to ensure milestone completion. • Performed root cause analysis on reporting discrepancies, improving data reliability and audit traceability.	
Data Analyst Internship, <i>Excelinnova Consultancy Services Pvt Ltd,</i>	<i>Apr 2024 – Jul 2024</i> <i>Dwarka, New Delhi</i>
• Managed ETL pipelines processing 50 k+ data records, ensuring 98% accuracy in data transformations and loading. • Built an AI-powered language conversion model in Python, improving multilingual communication efficiency by 30%.	
Jr. Executive, Customer Success, <i>Witzeal Technologies Pvt Ltd,</i>	<i>Mar 2023 – Aug 2023</i> <i>Gururgram, Haryana</i>
• Conducted root cause analysis that reduced customer resolution time from 5 hours to 4 hours (20%) on average. • Partnered with product teams to enhance product usability, leading to a 10% improvement in customer satisfaction scores (CSAT). • Worked with cross-functional teams (product, tech, ops) to streamline workflows. • Resolved 200+ customer queries per month with a 90% first touch resolution rate, contributing to a 12% increase in customer retention.	
PROJECTS	
Phoenix AI scan / <i>Python, Case Study</i>	
• Implemented a pre-execution AI code risk scanning tool that detects destructive and non-compliant operations in AI-generated code, provides explainable risk insights, and helps prevent accidental data loss before execution.	
Change Request Automation System / <i>N8N Workflow Automation, Case Study</i>	
• Designed and implemented an end-to-end change request approval workflow using n8n, Google Forms, Google Sheets, and Gmail to automate change management intake, tracking, unique ID generation, real-time status updates, and email-driven approvals, reducing manual coordination and improving compliance traceability.	
Auto Sync – SFTP Automation Tool / <i>Open-source, Python, Case Study</i>	
• Built a configurable SFTP automation tool to streamline file syncing, change detection, audit reporting, and automated email notifications, reducing manual audit documentation time by 60% while improving version control and compliance accuracy.	
Excel Batch Cleaner / <i>Python, GitHub</i>	
• Developed a Python tool to automatically clean, merge, and standardize large Excel datasets for reporting, improving data consistency and reducing manual preprocessing time by 50%.	
File Update Reporter / <i>Python, GitHub</i>	
• Created a Python utility that scans directories to detect new or updated files and sends automated email reports, improving directory monitoring and audit traceability.	
CUSTOMER BEHAVIOR IN SPATIAL SHOPPING / <i>Python, IBM SPSS</i>	
• Performed consumer behavior analysis on online and offline shopping data to identify buyer segments and generate insights for improved marketing targeting.	
THE IMPACT OF INSOMNIA ON HEALTH / <i>R Programming, Excel</i>	
• Analyzed health data using regression techniques to assess insomnia's impact and provide analytical insights to support preventive health decision making.	

EDUCATION

Manipal University, <i>MBA Project Management (Online)</i>	<i>Jaipur, India</i> <i>2024-2026</i>
Guru Gobind Singh Indraprastha University, <i>PG Diploma in Data Analytics</i>	<i>New Delhi, India</i> <i>2023-2024</i>
Maharaja Surajmal College, IPU <i>Bachelor of Computer Applications</i>	<i>New Delhi, India</i> <i>2018-2022</i>
